MARVEL FUTURE FIGHT TIER LIST v625

Tier List Notes:

All characters are sorted alphabetically.
(Transparent characters with Tier 1tag are not advanced to Tier 1, and their exact tier ranks can be found in the Low Tier List)

Uniforms are essential for character spots.

Placements depend on the player choices and versatility of the characters.

Characters are ranked by their own battle type.
Combat class and other type rankings should not be compared to each other.

WORLD BOSS ULTIMATE STRIKER TIPS

- If your Clearers have any of the Effects/Icons, do not use corresponding Strikers with that Effect (excluding Thanos Ultimate Stage). Only use one Striker for each Effect, if any.
- Carvus Glaive Ultimate stage has tremendous Dodge, utilize Ignore Dodge Strikers against this World Boss.
- Thanos Ultimate stage has debuff removal in it's second phase, so prioritize Damage Dealer Strikers, instead of others.

ATTACK INCREASE	TOP PVE	TOP PVE

DANGER ROOM TIPS

- LEADER: A top PVE character with Energy/Physical/All Attack leadership should be chosen.
- DAMAGE DEALERS: While taking leader into consideration, you can chose any top PVE character.
- Exclusive Skill charges when you attack the bees. You don't have to collect Blue Energy Capsules.
- Yellow Energy Capsules use a random Exclusive Skill (including Healing exclusive skill).
- Do not leave the room just because somebody else picked your favorite character.
- Do not pick a character who cannot do diddly-squat just because you love them.
- Visit reddit.com/r/future_fight for more detailed roster pick on every Sunday.
