STRIKER TIPS

- If your Clearers have any of the Effect icons, do not use corresponding Strikers with that Effect (excluding Thanos Ultimate Stage). Only use one Striker for each Effect, if any.
- Corvus Glaive Ultimate stage has tremendous Dodge, utilize Ignore Dodge Strikers against this World Boss.
- Thanos Ultimate stage has debuff removal in it's second phase, so prioritize Damage Dealer Strikers, instead of others.

ATTACK INCREASE	TOP PVE	TOP PVE

TIPS

- LEADER: A top PVE character with Energy/Physical/All Attack leadership should be chosen.
- DAMAGE DEALER: While taking leader into consideration, you can chose any top PVE character.
- Exclusive Skill charges when you attack the boss. You don't have to collect Blue Energy Capsules.
- Yellow Energy Capsules use a random Exclusive Skill (including Healing exclusive skill).
- Do not leave the room just because somebody else picked your favorite character.
- Do not pick a character who cannot do diddly-squat just because you love them.
- Visit reddit.com/r/future_fight for more detailed roster pick on every Sunday.
